

vaSoundMapScheme::Update

vaColorScheme::Update

vaBaseProgrammableObject
::GetProgramByName

```
graph LR; A[vaSoundMapScheme::Update] --> C[vaBaseProgrammableObject::GetProgramByName]; B[vaColorScheme::Update] --> C;
```

The diagram illustrates a dependency or inheritance relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'vaSoundMapScheme::Update' and the bottom box contains 'vaColorScheme::Update'. On the right, a gray rectangular box contains the text 'vaBaseProgrammableObject' on the top line and '::GetProgramByName' on the bottom line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'vaSoundMapScheme::Update' and 'vaColorScheme::Update' depend on or call the 'vaBaseProgrammableObject::GetProgramByName' method.
