

vaSoundMapScheme::Update

vaColorScheme::Update

vaBaseProgrammableObject  
::InitProg

```
graph LR; A[vaSoundMapScheme::Update] --> C[vaBaseProgrammableObject::InitProg]; B[vaColorScheme::Update] --> C;
```

The diagram illustrates a relationship between three code elements. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'vaSoundMapScheme::Update' and the bottom box contains 'vaColorScheme::Update'. On the right, there is a larger grey rectangular box with a black border containing the text 'vaBaseProgrammableObject' on the top line and '::InitProg' on the bottom line. Two blue arrows point from the right side of each white box to the left side of the grey box, indicating that both 'vaSoundMapScheme::Update' and 'vaColorScheme::Update' are associated with or call 'vaBaseProgrammableObject::InitProg'.
