

vaBasicRenderer::SetMiss
ProgSDFProg

```
graph LR; A["vaBasicRenderer::SetMiss<br/>ProgSDFProg"] --> B["vaBasicObject::GetContext"]
```

A diagram showing a call from the function `vaBasicRenderer::SetMiss` to the function `vaBasicObject::GetContext`. The first box is shaded gray and contains the text `vaBasicRenderer::SetMiss` and `ProgSDFProg`. A blue arrow points from the right side of this box to the left side of the second box. The second box is white with a black border and contains the text `vaBasicObject::GetContext`.

vaBasicObject::GetContext
